

## Will Fees

We believe our Will prices remain fair and competitive. There are two categories in which our Wills fall:

### **Simple Wills**

A simple Will involves leaving your estate to a single beneficiary, or group of beneficiaries, such as children or charities. We would discuss your requirements around Executors, guardians of minor children where necessary, and any other legacies you may wish to leave.

As a couple, you may wish to leave your estate to your spouse, partner or civil partner, and then perhaps to children on the death of the survivor.

Our fees start at £300 plus VAT for a single Will and £450 plus VAT for mirror Wills for a couple.

### **Complex Wills**

A more complex Will would consider such matters as blended families, vulnerable beneficiaries, and mitigating the impact care fees may have on your estate. Or your circumstances may be that you are a farmer, or business owner, and you are concerned about succession planning.

We would consider any inheritance tax liability affecting your estate, together with any reliefs available, and can also advise in relation to gifting assets, discretionary trusts or exclusion of beneficiaries.

Our fees start at £350 plus VAT for a single Will and £600 plus VAT for mirror Wills.

Whatever your circumstances and needs, we will take the time to discuss your situation and make sure that we work together to achieve a Will that is right for you.
